COMMITTED TO REDUCING CHEMICALS

Very few of the world's 85,000+ chemicals have been tested for their impact on human health. Over 200 chemicals have been found in the cord blood of newborns, and typical adults have more than 700 manmade chemicals in their bodies. It all adds up to something called Body Burden, which isn't good. That's why Norwex® offers proven microfiber, household and personal care solutions that work to keep harmful chemicals out of your home and off your body.

live cleaner, feel better

Our advanced microfiber, innovative household cleaners and transformative personal care products are as safe as they are effective.

Harmful chemicals have no place in your home. Get a safer, better clean with our sustainable plant- and enzyme-powered solutions, instead.

Healthier skin, hair and body start with ultra-clean formulas powered by natural, Nordic ingredients. And the healthier you are, the younger you look and feel.

microfiber makes a difference

Chemical-based cleaners can sanitize or disinfect, but they can also leave behind harmful residue on surfaces your family touches. Norwex® Microfiber can remove up to 99% of bacteria from those surfaces using only water, when following proper care and use instructions.

From our tried-and-true EnviroCloth®
to our thick, plush Dusting Mitt and
super-durable Mop Pads, our versatile
and absorbent microfiber handles
everything your family can lay down.

we set the standard for microfiber performance

SAVE TIME AND MONEY AND HELP THE EARTH

With Norwex® Microfiber, you can eliminate harmful, chemical-laden cleaners plus all those single-use disposables like paper towels, floor pads and wipes. That's great for the environment and your budget, saving you about \$600 a year.* Look for this symbol **RECYCLED* denoting products made from 50%–91% recycled microfiber yarn. They've saved millions of bottles from the landfill. And with no more lugging around totes or switching cleaners for every project, you'll save a lot of time, too.

OUR EXCLUSIVE BACLOCK® SELF-PURIFIES

Look for the logo. BacLocks Norwex Microfiber products containing BacLock self-purify within 24 hours when wet!** This micro silver antibacterial agent embedded in the cloth self-cleanses it—drastically reducing mold, fungi and bacterial odor—so the cloth is ready to use again and again, and it needs laundering less often.

Between washes, simply rinse thoroughly and hang to dry.

STANDARD 100 BY OEKO-TEX®

When you see OEKO-TEX® you can be sure that every component—from yarn and dyes to trim and label—

has been certified free from harmful substances.

All Norwex Microfiber products carry a two-year warranty. For details please visit: https://norwex.biz/en_US/pages/product-guarantee.

MECHANICAL VERSUS CHEMICAL CLEANING

why our products are better

ENZYME-BASED CLEANERS

Your home is no place for harmful chemicals—that's why many of our household cleaning products are enzyme-based. Enzymes not only work quickly and effectively to break down soils, stains and odors, they provide a better clean, free from harmful chemicals, so they're safer for your family and the environment.

USDA CERTIFIED BIOBASED

Look for the logo. USDA Biobased Certification indicates that a significant percentage of the product is derived from plants and other renewable agriculture, marine and forestry materials. To date, 21 of our formulations (and counting) have earned the United States Department of Agriculture's Certified Biobased label—high-profile recognition given only to products that contain a USDA-verified amount of renewable biological ingredients.

OCEANBOUND PACKAGING

The OceanBound label on our 12-ounce bottles indicates they're made of plastic waste that was at risk of entering the world's oceans. This is plastic that for whatever reason had fallen outside normal collection processes and was in danger of becoming a part of the 9 million tons of discarded plastic estimated to flow into our oceans every year. Bottles made from OceanBound Plastic are completely recyclable in most municipal recycling streams.

AUTOSHIP AND SAVE

Never run out of the products you love! Ask your Norwex Consultant about our AutoShip & Save program and receive a 10% discount on all recurring orders of select products. how to care for your microfiber

- Machine washing and drying are recommended prior to initial use. Rinse slightly dirty microfiber cloths under warm, running water and hang to dry** or drop into the dryer.
- Launder microfiber cloths separately or with other lint-free laundry. Dry completely.
- For best results, use a laundry detergent that's free from fillers, like a Norwex laundry detergent.
- Do not use bleach. Do not use fabric softeners or dryer sheets when laundering microfiber; they coat the fibers and reduce their ability to clean effectively.
- For an even deeper clean, use Microfiber Cleaner Laundry Booster.
- Do not use microfiber (except Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.
